TRIUNE
WELLNESS CENTER

I'm very grateful our paths have crossed and that we will be meeting together very soon. I am excited to get to know you, what your health issues are and to help you start healing. In the mean time before we meet, some paperwork will be needed. This will ensure that I have the best overall picture of how to help you. In this file you will find the paperwork and everything that you will need to make the most of your initial appointment.

Please fill this paperwork out completely and sign where appropriate. If we are having a phone consultation, please fill out, scan and return to me through email (dr@drscottgraves.com).

What does the 3 hour initial consultation look like?
We can either do the whole 3 hour visit together or what we normally do is break it up into 2 – 1.5 hour sessions. Please let me know if you would like to do the whole session all together. Otherwise, the first appointment will be set up for 1.5 hours. These initial consultations are a critical part of setting the foundation for your healing.

1st appointment (1.5 hours):

- We will go over a thorough and detailed health history (30-45 minutes). Even though you fill out paperwork, more questions may be asked for further clarification into your specific issues.
- We will go over my philosophy of healing and how that relates to the specific health issues that you are having (30-45 minutes). This philosophy may be different than what you have heard before, but it will make complete sense to you. We also will do treatment (acupuncture normally) if the appointment is done in the clinic.
- Intuitive testing (applied kinesiology), tongue diagnosis and pulse diagnosis. Using the Nutrition Response Testing format, you will be tested for the weakest organs, glands or parts of the body that need the most physical healing and what organic whole food supplements can help those parts of the body to best heal. You body is also tested for heavy metals, chemicals, food sensitivities, pathogens or scars that may be causing confusion in your nervous system. If a full detoxification is needed, it may be suggested.
- The cost for this initial 3 hour consultation is $160 USD. If it is a distance session being done on Skype or over the phone, payment can be made by credit card. Payment is made in full at the end of the 1st appointment with cash, check or credit card.

2nd appointment (1.5 hours):

- We will go over a detailed report discussing what was found in the testing (30-45 minutes). The focus of this report is mostly on physical healing. You are encouraged to ask questions. Other resources will be presented here that will greatly aid you in the healing process.
- Diet and healthy eating. Many people have questions about diet and what is best for them. While this may not be the focus of healing in future sessions, it will be discussed because it is an integral part of the healing process. If this is a priority for you, please let me know and we can spend more time in this area. If this is something you feel you have a good handle on, we can move on to the other aspects of healing.
- Depending upon each case, we may have a short session and to dig into your health issue.

Chinese medicine is a complete system of medicine and my mission is to bring the brilliance of this medicine to the world and to help as many people as possible by natural means. Any and all health problems can be treated with Chinese medicine including headaches, asthma, depression/anxiety, digestive issues, pain, PMS symptoms, infertility, fatigue, insomnia, skin issues (acne, eczema, dermatitis), or anything else.

ARBITRATION AGREEMENT

Article 1: Agreement to Arbitrate:
It is understood that any dispute as to medical malpractice, that is as to whether any medical services rendered under this contract were unnecessary or unauthorized or were improperly, negligently or incompetently rendered, will be determined by submission to arbitration as provided by state and federal law, and not by a lawsuit or resort to court process except as state and federal law provides for judicial review of arbitration proceedings. Both parties to this contract, by entering into it, are giving up their constitutional right to have any such dispute decided in a court of law before a jury, and instead are accepting the use of arbitration.

Article 2:
All Claims Must be Arbitrated: It is also understood that any dispute that does not relate to medical malpractice, including disputes as to whether or not a dispute is subject to arbitration, and procedural disputes will also be determined by submission to binding arbitration. It is the intention of the parties that
This agreement binds all parties as to all claims, including claims arising out of or relating to treatment or services provided by the health care provider including any heirs or past, present or future spouse(s) of the patient in relation to all claims, including loss of consortium. This agreement is also intended to bind any children of the patient whether born or unborn at the time of the occurrence giving rise to any claim. This agreement is intended to bind the patient and the health care provider and/or other licensed health care providers or preceptorship interns who now or in the future treat patient while employed by, working or associated with or serving as back-up for the health care provider, including those working at the health care provider's clinic or office or any other clinic or office whether signatories to this form or not. All claims for monetary damages exceeding the jurisdictional limit of the small claims court against the health care provider, and/or the health care provider's associates, association, corporation, partnership, employees, agents and estate, must be arbitrated including, without limitation, claims for loss of consortium, wrongful death, emotional distress, injunctive relief, or punitive damages.

Article 3: Procedures and Applicable Law:
A demand for arbitration must be communicated in writing to all parties. Each party shall select an arbitrator (party arbitrator) within thirty days and a third arbitrator (neutral arbitrator) shall be selected by the arbitrators appointed by the parties within thirty days thereafter. The neutral arbitrator shall then be the sole arbitrator and shall decide the arbitration. Each party to the arbitration shall pay such party's pro rata share of the expenses and fees of the neutral arbitrator, together with other expenses of the arbitration incurred r approved by the neutral arbitrator, not including counsel fees, witness fees, or other expenses incurred by a party for such party's own benefit. Either party shall have the absolute e right to bifurcate the issues of liability and damage upon written request to the neutral arbitrator. The parties consent to the intervention and joinder in this arbitration of any person or entity that would otherwise be a proper additional party in a court action, and upon such intervention and joinder any existing court action against such additional person or entity shall be stayed pending arbitration. The parties agree that the provisions of state and federal law, where applicable, establishing the right to introduce evidence of any amount payable as a benefit to the patient to the maximum extent permitted by law, limiting the right to recover non – economic losses, and the right to have a judgment for future damages conformed to periodic payments, shall apply to disputes within this Arbitration Agreement. The parties further agree that the Commercial Arbitration Rules of the American Arbitration Association shall govern any arbitration conducted pursuant to this Arbitration Agreement.

Article 4: General Provision:
All claims based upon the same incident, transaction or related circumstances shall be arbitrated in one proceeding. A claim shall be waived and forever barred if (1) on the date notice thereof is received, the claim, if asserted in a civil action, would be barred by the applicable legal statute of limitations, or (2) the claimant fails to pursue the arbitration claim in accordance with the procedures prescribed herein with reasonable diligence.

Article 5: Revocation:
This agreement may be revoked by written notice delivered to the health care provider within 30 days of signature and if not revoked will govern all professional services received by the patient and all other disputes between the parties.

Article 6: Retroactive Effect:
If patient intends this agreement to cover services rendered before the date it is signed (for example, emergency treatment) patient should initial here.

Effective as the date of first professional services. If any provision of the Arbitration Agreement is held invalid or unenforceable, the remaining provisions shall remain in full force and shall not be affected by the invalidity of any other provision. I understand that I have the right to receive a copy of this Arbitration Agreement. By my signature below, I acknowledge that I have received a copy. NOTICE: BY SIGNING THIS CONTRACT YOU ARE AGREEING TO HAVE ANY ISSUE OF MEDICAL MALPRACTICE DECIDED BY NEUTRAL ARBITRATION AND YOU ARE GIVING UP YOUR RIGHT TO A JURY OR COURT TRIAL. SEE ARTICLE 1 OF THIS CONTRACT.

Consent To Treat Form

I hereby request and consent to the provision of services rendered by Scott Graves and/or other licensed providers at Triune Wellness, LLC.

I understand that methods of treatment may include, but are not limited to, acupuncture, moxibustion,

manual therapy, ultrasound therapy, neuromuscular reeducation and/or other physical therapy modalities, cupping therapy, bleeding therapy, Gua Sha, injection therapy,recommendations for herbs and supplements, laser therapy, injections, electrical stimulation, Tui-Na (Oriental massage), Oriental herbal medicine, nutritional counseling and other modalities within the provider's scope of practice.

I understand that the herbs may need to be prepared and the teas consumed according to the instructions provided orally or in writing. The herbs may have an unpleasant smell and/or taste. I understand that post treatment flare-ups (increased symptoms) are a normal and expected part of healing. However, I will immediately notify Triune Wellness, LLC of any increased pain or symptoms or if I am worried or concerned about any aspect of treatment or recommendations made by the provider. I understand that support staff is not qualified to give me medical advice or treatment recommendations.

I have been informed that acupuncture and body work are generally safe methods of treatment, but that they may have some side effects, including but not limited to, soreness, bruising, numbness or tingling near the needling sites of needle insertion or manual work, dizziness or fainting. Bruising and tenderness are common side effects of acupuncture, injections, and massage and physical medicine modalities. Rare or unusual risks of acupuncture include spontaneous miscarriage, nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk, although the clinic uses disposable sterile needles and maintains a clean and safe environment. Some potential risks of injections of any type are bruising, tenderness, allergic reaction to products or devices, numbness, muscle soreness or nerve damage.

Burns and/or scarring are a potential risk of moxibustion and fire cupping. I understand that while this document describes the major risks of treatment, other side effects and risks may occur. The herbs and nutritional supplements (which are from plant, animal and mineral sources) that have been recommended are traditionally considered safe in the practice of Oriental Medicine, although some may be toxic in large doses. I agree to inform the provider at time of product recommendation if I am on blood thinners, have a heart condition, am breast feeding, have diabetes or am on any medications, though ultimately it is my responsibility to research herb-drug interaction before choosing to take any herbs, vitamins or supplements that are recommended.

I understand that some herbs may be inappropriate during pregnancy. Some possible side effects of taking herbs are nausea, gas, stomachache, vomiting, headache, diarrhea, rashes, hives, and tingling of the tongue. I will notify a clinical staff member who is caring for me if I am or become pregnant or are nursing, on blood thinners, have a change in medication, new diagnosis or symptoms, change in symptoms, have or get a pace-maker, have diabetes, hypertension, thyroid issues or other health conditions arise or change.

I do not expect the clinical staff to be able to anticipate and explain all possible risks and complications of treatment. I wish to rely on the clinical staff to exercise judgment during the course of treatment which the clinical staff thinks at the time, based upon the facts then known is in my best interest. I understand that results are not guaranteed.

I understand the clinical and administrative staff may review my patient records and lab reports and my records may be shared with my insurance company to facilitate payment but all my records will be kept confidential and will not be released without my written consent.

By voluntarily signing below, I show that I have read, or have had read to me, the above consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
